MASERGY to Present Conference Session at INTERNET TELEPHONY® Conference & EXPO East 2008

*Chris Nabinger to Discuss Network Assessment and Voice Quality at IP Communications
Industry's Leading Event at Miami Beach Convention Center in January*

DALLAS (Dec. 13, 2007) — MASERGY today announced that Chris Nabinger, chief technology officer, has accepted an invitation to present a session titled, "Prepare Your Network for Quality Voice," at TMC's INTERNET TELEPHONY® Conference & EXPO East 2008 on Wednesday, January 23, 2008, at the Miami Beach Convention Center in Miami, Florida.

INTERNET TELEPHONY Conference & EXPO, held January 23-25, 2008, is the world's largest and best-attended IP Communications trade show. Last year's east coast event, held in South Florida in January, drew more than 7,000 buyers and sellers of IP Communications products and services. The upcoming show in January will be the 17th INTERNET TELEPHONY Conference & EXPO, and TMC projects total attendance to exceed 7,500.

"MASERGY is honored to join this prestigious group of companies to discuss the importance of practical network assessments in achieving optimum voice quality over enterprise data networks with technology decision makers," said Nabinger. "I look forward to sharing our unique perspective on the best practices for preparing networks to carry converged voice and data traffic that have benefited enterprise organizations worldwide."

"We are very pleased that Mr. Nabinger will be participating in this year's show. MASERGY is widely recognized and respected as an industry leader, and I am confident that our attendees will appreciate and value the opportunity to hear his perspective on the value of network assessment in achieving effective voice quality," said TMC president and conference chairman, Rich Tehrani. "Over the past twelve months, widespread deployment of IP Communications services by global service providers, businesses and governments has reinforced that this exciting technology is a viable, cost-effective communications solution. As a result, we are seeing a significant number of senior-level executives attending INTERNET TELEPHONY Conference & EXPO as a means of learning about the technology so they too can take advantage of its benefits."

Registration for the show is now open. Anyone interested may register by visiting www.itexpo.com. Limited booth space is still available as well. Vendors interested in exhibiting at the show should contact Dave Rodriguez at 1-203-852-6800, ext. 146 or at drodriquez@tmcnet.com.
