MASERGY Selected as Finalist for *Red Herring* 100 North America

Award Recognizes 100 Most Promising Companies Driving the Future of Technology

DALLAS (April 5, 2007) — MASERGY, a global service provider specializing in simplifying business networks for enterprises, announced it has been selected as a Finalist for the 10th annual *Red Herring* 100 Awards, a selection of the 100 private companies based in North America that play a leading role in innovation and technology.

The *Red Herring* editorial board diligently surveyed the entrepreneurial scene throughout the North American region and identified the top 200 finalists from more than 800 closely evaluated companies that are leading the next wave of innovation.

“We can see the exciting evolution of the technology sector reflected in the quality and variety of exceptional companies that we had to choose from in putting our list together,” said Joel Dreyfuss, editor-in-chief of *Red Herring*. “It was tough to choose just 200 finalists from such a large list of excellent contenders, and we are very happy with the qualities of the companies we selected as Finalists.”

Recognized as an innovator in the communications industry, MASERGY reached annual revenue of approximately \$60 million in its first five years of operation by delivering the industry’s best enterprise networking experience, including unique solutions, exceptional customer service and support and simplified billing. Recent highlights of the company’s forward momentum and financial success include achieving EBITDA-positive status during FY2006 and generating positive net income in FY2007.

“MASERGY is proud to join this impressive group of innovators recognized by *Red Herring* for leading advances across a wide range of technology sectors,” said Barry D. Nalls, president and CEO of MASERGY. “Our success is driven by our team’s collective passion for delivering a total customer experience across solutions, collaboration, delivery, support and billing.”

The top 100 companies will be announced at the *Red Herring* Spring event, where the winning CEOs will present their innovative ideas and technologies to an audience of leading entrepreneurs, financiers and corporate strategists in attendance May 1-3 in Monterey, Calif., at the Hyatt Regency Hotel.

This year’s *Red Herring* 100 Spring event marks the 10th anniversary of the *Red Herring* 100 Awards. In celebration, the event will feature keynote addresses from legendary VC investors and CEOs of leading Internet, information, and communications companies.
